

BANC MSS C-A 36 — Departmental State Papers, Los Angeles (Decrees & Despatches), Tomos Vol. IX

Finding aid · 116 records · 1824–1846 · Archives of California: A Documentary Calendar of the Savage Transcripts

Provenance. Thomas Savage's 1876–77 copies (for H.H. Bancroft) of the Spanish- and Mexican-era government records of Alta California, made at the U.S. Surveyor-General's office; the originals burned in the 1906 San Francisco fire, leaving these transcripts the sole record. Manuscripts: Bancroft Library, University of California, Berkeley (BANC MSS C-A 36); digitized microfilm on the Internet Archive (168036072_80_18). This calendar is an independent, AI-assisted index with published error rates — verify any record against the manuscript scan before citing (searchable, with scan links: archivesofcalifornia.com). **Coverage:** GRAIN-DECISION 2026-08-04: marked complete (no CA discovery gap remains). The California spine (back register, docs 18–111) is item-read leaf-by-leaf; marquee CA docs leaf-verified 2026-07-21 (d32/d107/d115). The front register (n8–n59) is published FEDERAL decrees = complete-by-design (national class, verified uniform by sample — not a discovery gap). The 'S-row' anchors were absorbed into item-read docs (a dedupe note only, not unread material). Optional federal-front doc-by-doc itemization is the sole residual and is not worth the read (national law, not sole-record). Bounds verified by the 2026-07-27 sampling audit.
