

BANC MSS C-A 45 — Departmental State Papers, San José, Tomos IV+

Finding aid · 499 records · 1817–1849 · Archives of California: A Documentary Calendar of the Savage Transcripts

Provenance. Thomas Savage's 1876–77 copies (for H.H. Bancroft) of the Spanish- and Mexican-era government records of Alta California, made at the U.S. Surveyor-General's office; the originals burned in the 1906 San Francisco fire, leaving these transcripts the sole record. Manuscripts: Bancroft Library, University of California, Berkeley (BANC MSS C-A 45); digitized microfilm on the Internet Archive (168036066_81_7). This calendar is an independent, AI-assisted index with published error rates — verify any record against the manuscript scan before citing (searchable, with scan links: archivesofcalifornia.com). **Coverage:** Front half no–n248 (Docs 1–76) leaf-read; back half n250–n386 GAP-SAMPLED (anchors n250/260/270/330/340/366), NOT continuously read — △ wording corrected 2026-07-28 (earlier 'Full sweep no–n386 complete' overstated the survey file). San José–specific docs itemized, routine runs bounded at index grain; all marquee items recovered (US-conquest proclamas, 1840 padrón of 929, Sainsevain quicksilver). Residual ~30–40 un-sampled leaves in n281–295/n301–353 → optional 1–2 hr spot-check clears it. Not a discovery gap. See [[gap-read-verification-2026-07-27]].
