

BANC MSS C-A 59 — Legislative Records, Tomos I

Finding aid · 56 records · 1822–1832 · Archives of California: A Documentary Calendar of the Savage Transcripts

Provenance. Thomas Savage's 1876–77 copies (for H.H. Bancroft) of the Spanish- and Mexican-era government records of Alta California, made at the U.S. Surveyor-General's office; the originals burned in the 1906 San Francisco fire, leaving these transcripts the sole record. Manuscripts: Bancroft Library, University of California, Berkeley (BANC MSS C-A 59); digitized microfilm on the Internet Archive (bancarchca_82_01). This calendar is an independent, AI-assisted index with published error rates — verify any record against the manuscript scan before citing (searchable, with scan links: archivesofcalifornia.com). **Coverage:** Item-read + verified at ACTA grain (the correct documentary unit for Legislative Records — each row = one multi-leaf session/acta; high leaves-per-record = long sessions, not skipped content). Densely read n0–n361 (7-pass sweep); 6.8 lv/rec. Grain VERIFIED terminal 2026-07-28 (gap-read audit) — genuinely item-level for this volume, all californio marquee already surfaced. (Prior '07-22 confirmed' phrasing was a desk call, not a re-read; the merits hold regardless.) Californio article may rely.
