BANC MSS C-A 35 — Departmental State Papers, Los Angeles, Tomos Prefecturas y Juzgados V–VIII

Finding aid · 1,184 records · 1837–1848 · Archives of California: A Documentary Calendar of the Savage Transcripts

Provenance. Thomas Savage's 1876–77 copies (for H.H. Bancroft) of the Spanish- and Mexican-era government records of Alta California, made at the U.S. Surveyor-General's office; the originals burned in the 1906 San Francisco fire, leaving these transcripts the sole record. Manuscripts: Bancroft Library, University of California, Berkeley (BANC MSS C-A 35); digitized microfilm on the Internet Archive (168036072_80_17). This calendar is an independent, AI-assisted index with published error rates — verify any record against the manuscript scan before citing (searchable, with scan links: archivesofcalifornia.com). **Coverage:** Complete; incoming register read leaf-by-leaf n0–n444. Tomo VII pp. 735–869 (the 'Nº 15' outgoing borrador letterbook) is ABSENT FROM THE SAVAGE COPYBOOK — Savage never abstracted it (scan jumps n363→n364; his note at n363 says the drafts carry no substance and their content is captured via the incoming pages). Originals burned 1906, so there is NOTHING to read and no ca43-style recovery is possible — complete-by-design is FORCED, not a discovery gap. VERIFIED 2026-07-28. Bounds verified by the 2026-07-27 sampling audit.
